CONTENTS.

- General clauses
- Floor types
- List of laminates
- Ceiling types
- Schedule of finishes room by room

GENERAL CLAUSES.

-For information regarding standard of quality and complexity for Interior Design in Stena Service concepts, see separate document: *"Stena Corporate Identity Service Concepts Model Book"*.

Reference ship for the conversion is Stena Hollandica/Britannica refitted areas and cabins 2007 at Lloyd Werft.

General:

- All equipment to apply to European Union Council, Directive 96/98 EC on Marine Equipment (EU wheelmark)
- In general no heavy weight material shall be used (cape board panels etc.).
- The Contractor is responsible for checking measurements before manufacturing.
- All construction and mounting to be according to manufacturer and approved of by architect.
- All equipment to be manufacture for Marine use.
- The owner shall approve all new equipment and drawings.
- All existing equipment which not be reused shall be moved to, by Stena Line, advised area.
- Reused item shall be adjusted and upgraded acc. to finishes and installed.

Materials:

- All core materials to be non-combustible.
- All laminates according to IMO code.
- Material in combination with specified linings shall be of such quality that the construction applies to the regulations required.
- Glass mentioned, real, toughened or Lexan, in schedule or on drawing, may be altered by decision from Stena Line. This would affect finishing treatment and weight (construction).
- All panels to be with V-joints unless otherwise specified.
- No nuts or screws for fixing shall be visible if not specially specified.

- All timber to be lacquered with fire retardant lacquer.
- All Stainless Steel quality 18/08, thickness 1,5 mm. All Stainless steel in pool areas to be acid-proof.
- All concrete glass blocks to be acid etched type Yroxso or equal.

Furniture and fabrics:

- All fabrics to be of FR quality acc. to IMO code.
- Sprinklers, smoke detectors, diffusers etc. to be centrally positioned in ceiling panels.
- No sharp edges on touchable endings and corners.
- All tables and bar stools shall be fixed to deck unless otherwise noted.
- All table heights to be checked with proposed surrounding furniture heights before manufacturing.
- Chairs shall be reused in extent according to this schedule. Tables to be reused with refitted table tops according to this schedule in extent possible.
- All interior shelves and cupboards furniture to be fixed fitted.
- All pillars to have circular metal cladding in s/s according to specification.
- All equipment (cupboard, shop bays, refr. counter and galley equipment) shall be fixed to deck.

Doors etc:

- All door frames, in areas refitted within this project, to be lacquered if not specified.
- Door types, fitments, hinges etc. may be suggested by outfitter. In public areas relevant protection for children injuries shall be included. All glass doors shall be lockable.

All doors to have similar laminate on both sides unless otherwise noted

All doors to have frame and profiles powder coated in RAL 9007

All window boxes to be painted white, unless specified otherwise.

All roller shutters in bars, shops etc. to be in highly perforated see-through metal finish

Electric installation:

- Electric power, data, PA and telephone cabling shall be supplied to all new relevant units.
- Cabling shall be hidden. Switches, power points, computer outlets and equal equipment must be positioned and coloured in such way it blends in with the interior.
- Necessary preparations in bulkhead and furniture for invisible electrical connections and mounting of decorative light fittings supplied by special outfitter, shall be prepared for by outfitter, in accordance with drawings
- Lighting fitted in furniture and counters to be supplied and fitted by Outfitter, unless otherwise specified.
- Preamble to the schedule of finishes shall be considered as an integrated part of the specification.

Piping:

- Drain and water shall be supplied to all relevant equipment.

Signage:

- Unless indicated in spec. or drawing all signage will be supplied/installed by owners. Posters are owners delivery.

In the following schedule of finishes the specification of materials etc follows below matrix:

ca – Stands for Cabins

F - Flooring

S - Skirting

B - Bulkhead lining

C - Ceiling

CI - Complimentary Items

This document is a Tender Document. This document cannot be used as manufacturing drawings. Contractor is responsible for any required manufacturing drawings. Manufacturing drawings to be approved by Stena Line and FIGURA.

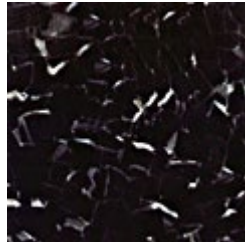

*The specified manufacturers are guidelines. Alternative ones can be chosen,
but to be approved by Stena Line and FIGURA in writing .
All changes of interior design to be confirmed by FIGURA.*

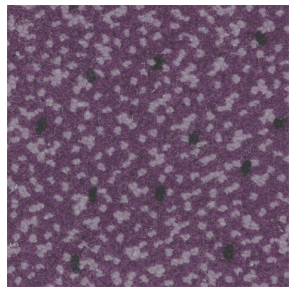

NOTE:**Contractor shall control all structural elements and measures before manufacturing.**
